

To Whomsoever It May Concern

Marks & Spencer -MRSL Compliance Certificate

The Manufacturing Restricted Substances list (MRSL) consists of priority substances (as per list) potentially used in manufacturing. These substances may be especially harmful for workers and / or the environment if not handle properly. By restricting intentional use of these chemicals in the production, we protect workers and the environment. Pidilite Industries Limited has always been committed to the highest standard of product safety and comply with chemical content and chemical exposure laws.

Pidilite Industries Limited here with confirm, that the hazardous group substances mention below (as per “**M&S** (Marks & Spencer), ECP (minimum standard manufacturing Restricted substances list (MRSL) V1.1 dated May 2016, are not Intentionally used in manufacturing of the finish products given in finish products Annexure- A

Alkyl Phenol and Alkyl Phenol Ethoxylate	Organotins
AZO Dyes- Restricted Amines	Polycyclic Aromatic Hydrocarbons
Navy Blue Colorants	Phthalates
Carcinogenic Dyes	Volatile Organic Compound
Skin Sensitizing Disperse Dyes	Pesticides / Insecticides
Flame Retarder	PER and Poly Fluorinated Chemicals
Short Chain Chlorinated Paraffins	Heavy Metals
Glycols	Chloro Benzenes & Chloro Toluenes
Halogenated Solvents	Chloro Phenols

The above mentioned confirmation is given in line with the above, provided that chemicals are applied in accordance with Pidilite’s recommendations and / or industry standards for chemical applications throughout the Textile industry. Processors particular attention is drawn to the below mentioned note & notes in the Annexures. For further details or information kindly contact Pidilite’s Sales team.

We request that notes given under various Annexure and as notes should be property read & follow.

For any H&M Chemical Restricted Part or unlisted Pidilite products or for any clarification, kindly contact Pidilite’s Sales Team / TSL.

R.H.Parekh

(Vice President Technical)

Note: (1) The Information submitted in this confirmation is based on our current knowledge and experience. The technical advice whether verbal, in writing or by way of trials is given in good faith but without warranty. In view of the many factors that may affect processing and applications, our advice does not relieve processors from the responsibility of carrying out their own tests and experiments; neither do they imply any legally binding assurance of certain properties or suitability for a specific purpose nor of the legal status of the listed products names. It is the responsibility of those to whom we supply, our products to ensure suitability for the intended process, uses and any proprietary, rights and existing laws and legislation are observed.

Responsibility for ensuring that the goods processed with the chemicals and colours meet the requirements of the ‘labels/agencies” rests solely with the processors.

This confirmation does not constitute an offer for sale of Pidilite’s products nor does it mean that Pidilite products are available on any market, for any customer and at any specific time.

Note: - (2) Please always check for the latest updated version we have revised our previous certificate dated 1st Jan 2016 cover modification / suggestion, addition of new products. This confirmation will expire on 31st December 2016, if not superseded by Pidilite with new declaration

Note:

1. CAS No / EC No is not applicable to our products as they are synthetic Resin (Polymer) or Pigment preparation, (Formulated product or Axillaries formulated products. None of the product (Finish product) in Hazardous.
2. None of the products contains intentionally added Chlorinated Aromatic Hydrocarbon (COC) like Chloro benzene and Chloro Toluene or any organic solvent some products may have traces of residuals Chlorinated organic carrier as impurities in raw materials, pigments used. For more details, please refer our 'RSL' certificate product list & notes. Products are marked as *.
3. None of the products contains intentionally added any Banned Amines. Some product has traces of impurities which carry forward from pigments used as RM's (especially pigments based on 3-3 Di Chloro Benzene (like yellow-12, yellow-14, yellow-83, orange -13 & orange -34) but not expecting to cross the limit given for 'RSL' certification of final articles. These amines are in ppm level.
4. Please check products for Baby Wear below 3 years in 'RSL' product appendix.
5. Products based on Carbon Black-6 & Carbon Black-7, cannot be mixed with products containing Orange-13 & Orange -34. Please refer product names in 'RSL' certification.
6. Some products contain chemically combined copper. This metal is present in complex bound for mass substantial constitute of the colorant (Metal complex pigment like Blue 15, Blue 15:3, Green based product) Process textile can meet M&S extractable free copper requirement as per M&S-MRSL & RSL May 2016. No Heavy Metal used Intentionally in products
7. No Organic solvents are used intentionally in the products. However, if present will be below allowable limit as per M&S-MRSL and RSL May 2016.
