

07/10/2021

To,
The Member Secretary,
State Level Environmental Impact Assessment Authority,
Environment Dept.
Government of Maharashtra,
15th Floor, New administrative Building,
Mantralaya, Mumbai- 400032

Dear Sir,

Sub:- Six Monthly Compliance report to the condition stated in EC Letter dt. 28.02.2020

Reference: - SEIAA-EC-0000002138 dt. 28.02.2020

We have received EC letter No **SEIAA-EC-0000002138 dt. 28.02.2020** on 1st March 2020. This supersedes our earlier EC Ref No. SEAC-2012/CR-201/TC -2 dated 31.12.2015. Immediately after receipt of Environmental Clearance in March 2020, COVID19 pandemic has hit the country. It has affected everyone including our business, till now we are observing Ups and Downs in our business due to Pandemic situation. Under these circumstances , the project initiation will be activated only in forthcoming months.

We are herewith submitting our 4th Six monthly compliance Report for the month of April 2021 to Sept 2021 to EC conditions as per EC condition no XXIV.

In this 4th EC compliance report, we herewith submit the Point wise compliance status to the conditions of Environmental Clearance issued vide letter no. **SEIAA-EC-0000002138 dt. 28.02.2020**.

Kindly acknowledge the receipt of the same

Thanking You
For Pidilite Industries Ltd.

Regional Office MOEF, Nagpur

Zonal Office, CPCB, Vadodara

Regional Office, SPCB, Navi Mumbai

Specific Conditions: -

Sr	Conditions Details	Current Status
1	PP proposes to develop 20% green belt within the plot area against 33% mandatory green belt. The rest of 13% green belt is proposed outside the plot area on self-owned land of the PP to comply with mandatory 33% green belt.	Complied - Green Belt Plantation of 20% within the A 22/1, A 21/2 plot area and 13% green belt in self-owned plot S. No. 33/4 is completed. 100 nos trees planted in this area and total 1923 nos trees are planted in the 33% green belt.
2	PP to implement CER plan in the villages as approved by the District Authority.	District collector has approved CER plan and CER expenditure vide his letter dated 02/06/2021. Annexure -1
3	PP to monitor carbon and water footprint on yearly basis by incorporating it in the targets of management System.	Complied - Company has committed for Sustainability Reporting and taken targets for monitoring and reducing carbon and water footprint. Targets for FY 21-22 attached herewith. Annexure – 2
4	PP to provide new and renewable energy source for the illumination of office buildings, streetlight and parking areas.	Complied - 79 Kwh PV Solar panels are installed in plant and it is connected to Grid and being utilized.
5	PP to ensure that CER plan gets approved from Municipal Commissioner/District Collector.	Complied - CER plan is approved by the district collector Annexure -1
6	PP to ensure to comply with the conditions stipulated in the Office Memorandum issued by MoEF& CC dated 9th August, 2018.	Our project could not be initiated due to COVID Pandemic. The applicable requirements would be taken up during execution of project.

General conditions

Sr	Conditions Details	Current Status
I	i)PP to achieve Zero Liquid Discharge; PP shall ensure that there is no increase in the effluent load to CETP.	Initiation of Project work got delayed due to COVID19 Pandemic. We will comply with requirement.
II	No additional land shall be used /acquired for any activity of the project without obtaining proper permission.	No additional land will be acquired or used for project without obtaining proper permission.
III	PP to take utmost precaution for the health and safety of the people working in the unit as also for protecting the environment.	Complied - All Necessary Health Safety Measures are in place like pre-employment and periodical Medical examination of all employees, regular safety training, various safety audits, Emergency response plan and periodical rehearsals, hazard identification and control measures, usage of PPE, Safe Operating Procedure, Engg and Admin controls etc.

IV	Proper Housekeeping programmers shall be implemented.	Complied - Housekeeping plan is in place for current manufacturing activities. 5S implementation is progress to strengthen it further.
V	In the event of the failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieve.	As and when it occurs – It will be complied.
VI	A stack of adequate height based on DG set capacity shall be provided for control and dispersion of pollutant from DG set. (If applicable).	Not Applicable - DG set is not installed in the Unit. Emergency power is available from adjacent own unit.
VII	A detailed scheme for rainwater harvesting shall be prepared and implemented to recharge ground water.	Complied - Rainwater harvesting system (Roof top) in place and is being used during monsoon. Permission from MIDC for Recharge to ground water being pursued.
VIII	Arrangement shall be made that effluent and storm water does not get mixed.	Complied - Effluent is transferred through closed pipelines and Storm water drains are kept free from any type of contamination in water.
IX	Periodic monitoring of ground water shall be undertaken and results analyzed to ascertain any change in the quality of water. Results shall be regularly submitted to the Maharashtra Pollution Control Board.	MIDC – Regional Office has not permitted to drill bores for ground water sampling in the factory plot premises. MMA has submitted a request letter to CEO MIDC for allowing the industries drill bore for sampling, Condition compliance will be done once it is approved by CEO MIDC. Refer the annex 3
X	Noise level shall be maintained as per standards. For people working in the high noise area, requisite personal protective equipment like earplugs etc. shall be provided.	Complied - No High noise area / equipment presently, Ear Plug and Earmuffs are available for any accidental noise
XI	The overall noise levels in and around the plant are shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures, etc. on all sources of noise generation. The ambient noise levels shall confirm to the standards prescribed under Environment (Protection) Act, 1986 Rules, 1989.	Complied. - Pl refer Annex - 4 Noise level monitoring report for August 21.
XII	Green belt shall be developed & maintained around the plant periphery. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	Complied - Green Belt Plantation of 20% within the A 22/1, A 21/2 plot area and 13% green belt in self-owned plot S. No. 33/4 is completed. 100 nos trees planted in this area. Total 1923 nos trees are planted in the 33% green belt.
XIII	Adequate safety measures shall be provided to limit the risk zone within the plant boundary, in case of an accident. Leak detection devices shall also be installed at strategic places for early detection and warning.	Complied - Hydrocarbon Gas Detectors are installed in tank farm, indication in central control room having person round the clock
XIV	Occupational health surveillance of the workers shall be done on a regular basis and record maintained as per Factories Act.	Complied - Pre-employment and periodical medical examination of all workers are carried out regularly.
XV	The company shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling.	Complied - Fire protection systems, Fire hydrant, sprinklers, smoke detectors are provided in the present set up.
XVI	The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Waste	Complied – Combined CTO for Water Air & Hazardous Waste Authorization is available

	(Management and Handling) Rules, 2003 (amended). Authorization from the MPCB shall be obtained for collections/treatment/storage/disposal of hazardous wastes.	and valid till 31.07.2021 (Applied for renewal UAN No-MPCB-CONSENT-0000115245) in June 2021.
XVII	Regular mock drills for the on-site emergency management plan shall be carried out. Implementation of changes / improvements required, if any, in the on-site management plan shall be ensured.	Complied - Mock drill schedule is in place. Last Mock drill was held on 26.08.2021 for existing operations. The proposed activity will also be covered under the same. Refer the Annex -5
XVIII	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.	Complied - Environment Management Cell comprising of EHS, Production, QC, R&D is done. Pls Refer the Annex-6
XIX	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These costs shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department	Complied for existing activity in Form V Environmental Statement Submitted to MPCB on 21.09.2021 After completion of project the additional capacity activities will covered in Form V
XX	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in	Complied – Advertisement of EC published in Marathi and English in Ratnagiri Times and Dainik Sagar dt 03 Mar 2020 Pls. Refer Annex - 7
XXI	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1 st June & 1st December of each calendar year.	Complied – . This is 4 th EC compliance report for the period April 21 to Sept 21.
XXII	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Complied - Copy of EC is sent to Dist Collector. No local NGO or Municipal Corporation has raised any suggestions/representation while processing our Env Clearance. Clearance letter is uploaded on Company Website PI refer the Annex -8
XXIII	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM. SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	Complied - This is 4 th EC Compliance report after receipt of EC. EC received on 1 st March 2020 and this report period is upto 30 th Sept. 2021. The project initiation is delayed due to COVID Pandemic, hence the Ambient levels of parameters are monitored in the existing set up.

XXIV	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.	Complied - six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) submitted to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
XXV	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.	Complied - The environmental statement for each financial year ending 31st March 21 in Form-V submitted on date 21.09.20 PI refer the Annex -09
4	The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.	Noted and will strictly ensure commitment to applicable environmental laws.
5	In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.	Noted and will strictly ensure commitment to applicable environmental laws.
6	The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.	Noted and will strictly ensure commitment to applicable environmental laws.
7	Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, and amendments by MoEF&CC Notification dated 29th April, 2015.	Noted and will strictly ensure commitment to applicable environmental laws.
8	In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.	Noted and will strictly ensure commitment to applicable environmental laws.
9	The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments	Noted and will strictly ensure commitment to applicable environmental laws.

10	Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1stFloor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Noted and will strictly ensure commitment to applicable environmental laws.

To,
 The Chief Executive Officer,
 Maharashtra Industrial Development Commission
 Udyog Sarthi, Mumbai

Subject: Request to allow Industries to drill Bores for Ground Water Sample Points within the MIDC plots for Environmental Clearance Conditions Compliance

Dear Sir,

In Mahad Industrial area there are near about 200 industries working. Most of these industries are Chemical and Pharmaceutical Industries. In Mahad industrial area all Member industries and MMA, CETP working hard on protecting the Environment. After looking at our efforts, MMA CETP was awarded with Vasundhara Award in 2017 by Ministry of Environment and MPCB. Also MIDC gave us chance to represent our success story in Envirotech Asia international Conference in 2018.

As per EPA, Environmental Clearance is critical aspect for new industries as well as expansion of existing industries. Industries do obtain the Environmental Clearance before starting of new industry or expansion of existing capacities. It is mandatory on the part of industry to comply with all the conditions mentioned in the Environmental Clearance. One of the standard conditions of Environmental Clearance is "Periodic monitoring of ground water shall be undertaken and results analyzed to ascertain any change in the quality of water. Results shall be regularly submitted to the Maharashtra Pollution Control Board." Few of our member industries have approached the Mahad MIDC office, to get permission for drilling Bores for Sampling of Ground Water. Mahad MIDC Office had replied that as per MIDC Development Control Rules, this office is not permitted to issue such permission to drill bores in factory premises.

Whereas the EC Compliance Inspection authorities from MoEF record it as non-compliance due to non-availability of ground water sample reports. It is a big hurdle for industries for complying with the Environmental Clearance conditions and thus impact new industry and the further addition of capacities.

Industries are already in trouble due to Covid 19 situation and such delays for commissioning of new industries and expansion of the existing industries having adverse impact on economy.

We request you to consider this situation and allow industries to have bores within the MIDC plot area for ground water sampling points as per Environmental Clearance

Pidilite EHS Manual	
Mock drill Report	
Format No.: [F][EHS 108][005]	Date: 1 Sep 2017 Version No: 01
Unit Name:	Pidilite Mahad A 22/1
Date:	26.08.2021 Time :- 19:30 Hrs

BRIEF DETAILS OF THE INCIDENT SIMULATED

VENUE:	Tank Farm area T 310 Monomer storage tank	
PARTICIPANTS:	Team Leader	Mr D S Patil
	Fire Fighting Team	Mr N S Pawar, C S Deshmukh, G S Pawar, D H Mahadik, N S Devgirkar
	Engg. Coordinator	Mr S V Ghadigaonkar/ Mr Vijay K Singh
	Gate Security	Mr N D Kadam , Mr Ahavad Mr Dalvi - Sec. Supervisor
	Fire Suit	Mr N S Devgirkar Mr D H Mahadik
	Fire & Safety coordinator	Mr Vilas Attarde /S S Mahamuni/ Amey Kale
	Site controller	Mr Manish Vyas
	Incident Controller	Mr Suresh Patil
	Head Count	Mr P D Mane
	Casualty & Stretcher	Mr D D Chalke, GSPawar, C S Deshmukh
	Panel Operator/ CR	Mr S A Kshirsagar/ R B Kadam
	Fire Operator	Mr S D Chitalkar
	Ambulance	Mr Praveen Pawar
	Production Cord.	Mr S M Mhatre
Store and Dispatch	Mr Kamal Rai/ G K Modhve	

	OHC Male Nurse	Mr Rushikesh Gite / B. Dhakne
INCIDENT DESCRIPTION	Gas Vapour emission from T 310 from flame arrester and Tank temperature started increasing may leads to self-polymerization	
SITE CONTROLLER	Mr Manish Vyas	
INCIDENT CONTROLLER	Mr Suresh Patil	
Location Head	Mr Sanjay Ghawghawe	

Sequence of operation with time line actions

Sr.	Planned Time Hrs	Action	Action By	Actual Time in Hrs
1	1930	Vinyl Acetate Monomer Tank T 310 - Operator noticed heavy vapors emission from breather and travelling towards floors level, gas may catch fire, informed to PO immediately through Walky Talky PO checked in DCS & observed increase in tank temperature slowly resulted emission of gas from breather valve. At the same time PO noticed tank farm gas detector alarm	PFO PO	1930
2	1930	PO informed to shift in charge immediately, Checked Chiller working effectively and informed utility operator to stop other tank circulation	PO PO- PFO	1931
3	1931	Shift In charge visited site immediately and assess situation& decided to declare emergency Start external cooling to T 310 VAM tank by operating from control room	SIC PO	1931
4	1931	Panel operator declare the emergency by sounding emergency siren 1 min Waxing Waning siren & instruct Sec. Supervisor to communicate in colony (SPG, MV,VKS, SVG,ND,SSG,VMA,PDM SSP,SMM)	PO PO	1932
5	1932	After receiving the telephonic information from PO & hearing emergency siren, Security informed SC, IC & all HOD/Section In charge & depute his staff for Fire Fighting , traffic management etc	PO Sec. Sup.	1933
6	1932	ERT Reports assembly points No 1. Team leader gives various assignment to response immediately. 3 members	Team Leader/	1934

		keep fire hydrant system ready for use . (team consist 03 person from production + TL, 01 plant sec. 01 amb. Driver, 01 utility operator, 01mech fitter , 01 electrician, 01 Fire Operator)	Incident controller	
7	1932	SC reports at ECC and takes stock of situation and all plant personnel to be alert their own working place and wait for further instruction Silent hrs emergency, Team leader managed till line management arrived from colony at site	SC	1934
8	1932	Considering Wind direction TL evacuated nearby person with help of ERT member ETP, (engg work shop, Tank Farm and instruct not to operate any electrical switches and evacuate)ask person to assemble at assembly point no 2 at A 22 main gate for head count Stopped vehicle movement in surrounding area and removed vehicle from scenario site	TL/ERT	1934
9	1933	Shift Incharge instructed one of the ERT member to use Fire suit and ready for fire fighting and rescue if any person trapped.	SIC/IC	1934
10	1934	Site controller and Team leader ensure auto inhibitor dosing operated and pot inhibitor charged in auto mode in T-310 Vs. Volume, further check on DCS , observed increase required PPM level in tank	SC/IC	1935
11	1934	Foam trolley kept ready for use, 3M Mask and other PPE used while attending emergency,requirement of SCBA is not there Water curtain is to be prepared multipurpose nozzles s considering wind direction with help of EHS dept	IC/SC	1935
12	1934	Incident controller deployed utility person to monitor fire water level and inform to IC and SC including A 21 fire water, A 22/1 Fire water low, IC controller instruct one of the ERT member to operate A 21 valve.	IC/SC	1935
13	1935	All Section Head/ Dept Head assisted in various operation to SC and IC Shift electrician and Instrument tech.in touch with control room and SC specially instructed electrical isolation,shut down, energization, light provision through walky Talky	All line management	1936
14	1936	Site controller and Incident controller instructed to monitor tank temperature and tank pressure trend and informed to site till normal situation. ensure temp start decreasing up to room temp and stable & not increasing further Spread foam inside the dyke as precautionary measures and develop	PO IC/TL & ERT	1936

		blanket,Blocked storm water drain by soil and sand to arrest spread water		
15	1936	Site controller informed communication team to inform adjacent industry and alert regarding incident and not to panic In case of evacuation require for adjacent factory will communicate	Commu. team KNR/GKM	1937
16	1936	Depute 02 ERT members for rescue operation in nearby area & reported status, no any person trapped at incident site.	IC	1937
17	1937	Received phone call from A21 and A 22/1 sec. Gate regarding some villagers are reported at gate and telling gas leakage in your factory and 05 person badly injured to SC/ Admin Head/ Location Head	Sec. Supervise	1939
18	1938	Admin head informed to security not to open gate and informed them mock drill exercise ia planned and no any actual incident inside the factory	Location Head	1939
19	1938	One of the team member inhaled vapour during attending emergency/ Sampling and second person felt down during fire fighting , shifted immediately in OHC	TL/ IC	1940
20	1938	Communication held between Site Controller,IC&Location Head, decides for complete Evacuation, Only emergency team + PO inside the plant.	SC/IC/Locati on Head	1940
21	1939	Contentious communication between SC and Location head on site situation and further help ask by incident controlling team Decided complete evacuation required and informed in control room for 3 min waxing waining siren	SC/Location Head	1940
22	1939	SC Phones up to ERC [101] for aid i:e Fire Tender , Ambulance, Mahad Municipality Fire Tender for external help	SC	1942
23	1940	Site controller & location head decided to informed corporate team regarding emergency for any guidance (Can be contacted to Mr Manish Shah, Pravin Chaudhari, Swami Sir's)	SC/Location Head	1942
24	1941	Incident controller and Team leader asses tank temperature decreases after adding inhibitor through pot by contacting PO	IC/TL	1942
25	1941	Received MIDC Fire tender , sec. direct incident spot and Fire team started work accordingly under guidance of Fire officer Incident controller and Team leader asked for additional Foam compound/ Expert from MARG/MMA members through communication team	Sec.Sup IC/TL - Communicatio n team	1942

26	1941	All line management/ HOD assist to SC in various matter Admin – Head count, External aid , Availability of hospitals , telephones Data for head count includes- contractors/Visitors, drives, cleaners	Engg Head, Electrical Head , Mech Head, Inst Head, Admin Head	1943
27	1941	Incident controller / TL checked tank inhibitor level at is within range and started decreasing tank temp also	PO	1943
28	1941	After decision from, IC, Site controller, Location head decided to declare all clear siren for 1 min contentious	IC/SC/ Loc. Head	1943
29	1941	Mean while Male Nurse from OHC sent message to SC/ EHS , causality needs to shift hospital for further treatment as breathing issue persist and victim feeling uneasy and shifted accordingly	Male Nurse	1943
30	1942	Team leader and Site controller concluded tank temperature is stable and not required to add inhibitor further or any other action	SC	1944
31	1942	Location Head, CDC, SC and all section head decided to restore operations after reviewing site situation and ensure no any further harm to plant / machinery and persons working in factory.	CDC/SC	1944
32	1942	Contacted Hospital to assess the causality condition and Male nurse reported he is ok as a precautionary measure Dr advised to keep under observation of FMO for next 3-4 hrs	CDC/ EHS	1946
33	1945	Review meeting was held and discussed good observation as well as improvement observations along with MIDC Fire team, FI, MARG team and site team.	All	1946

Observers: - 1) Scenario Site – Mr Ankush Kharade- Dy. DISH, Raigad

Mr Ajit Mohite - Dy. DISH, Raigad

Mr C D Deshmukh- MARG Member

2) OHC and ECC- Mr Sudhir Naigde - MARG Member

Abbreviation:

PFO- Process Field Operator

PO- Panel Operator

SIC - Shift Incharge

TL- Team Leader

IC- Incident Controller

ECC - Emergency Control Center

Sc - Site Controller

ERT - Emergency Response Team

MARG - Mutual Response Group

GD- Gas detector

DCS - Distributed control system

ASSEMBLY POINTS CHECKLIST:

Area Knowledge to all the participants	Yes
People assembled in 5-7 minutes of disaster	Yes (within 3 min)
Attendance Taken	Yes (Matched) , Head count taken at Assembly point NO - 2
Reporting mechanism to the Incident controller for possible evacuation	Yes , Observer by Walky talky , Through Siren, Telephone , Paging
Siren for all clear	1 min continuous siren for all clear
Time for incidence and time for all clear	16 min
The leadership quality of the personnel designated to control at assembly point	Leadership quality was satisfactory needs further improvement

EMERGENCY SQUAD:

Equipment resource	Required resources Fire Hydrant , Fire Extinguishers , Foam trolley and PPE
Equipment Operation, fire extinguisher, Hydrants opening, goggles, fire suits etc.	Yes performed during the drill
Time of arrival at site:	1932 hrs
Time for controlling emergency	1946 min
Time taken to controlling emergency	Satisfactory , some improvement points are there
Evacuation process knowledge of the team. Satisfactory, Unsatisfactory	Head count data matched by admin team

FACILITY EVALUATION:

Fire Extinguishers work ability and appropriateness	Yes , all fire extinguishers are healthy and working position
Hydrants working, Jet power, hose pipe fitting etc.	Working conditions, mobile foam monitor operated which is , Tanker Unloading area sprinkler operated, Mobile foam trolley brought at site for any further requirement

	Wind direction considered during Mock drill , Stretcher for causality shifting
Emergency Control room equipment's facility adequate or not adequate as per OEP	Emergency control room facility is adequate like site map, telephone number, telephone line, On Site emergency plan. Paging through phone , Use of Walky/ Talky
Medical Facilities like CPR , first aid and Oxygen cylinder etc.	Ambulance arrived at site to shift causality if any further treatment

Good Observation: -

- 1)Appreciated energy level and participation of team in silent hrs.
- 2)Resources availability and demonstration by team
(Use of Foam branches/ Fire suit/ Sprinkler system/Explosive meter etc.)
- 3) Dy. DISH Mr A B Kharade and Mr Mohite was present as a observes along with 02 MARG members(Mr C D Deshmukh (M/s Oodesy) and Mr S D Naigade(M/s Aquapharm)

RECOMMENDATIONS FOR THE IMPROVEMENTS IN THE OEP OR MANAGEMENT ACTION

Shortcoming / Gap Observed	Action Plan	Resp.	Target
Response time can be further improved.	Refresher training and counseling to team	SSP/SIC/VM A	15.11.2021
Illumination level to be improve	Illumination will be check on Lux meter of entire plant,additional light will be provide	ND/VKS	Completed
Causality handling and shifting First aid at OHC w.r.t. chemical inhalation/ skin contact to male nurse	Refresher training will be plan and readily information will be provide in OHC	VMA	Completed Displayed in OHC and Trg. Also given
Vehicle parking on road	Will stop immediately	PDM	Completed
Use of specific PPE like Gas masks for all team to be strengthened	One more table top will be arrange to strengthened PPE	SSP/IC/VMA	Completed and communicated , will check in next mock drill also
External agencies communication	Contacted only one agency, ensure all concern agencies are informed and well aware in case of On Site emergency become Off Site	MV/VMA	Completed Will check during next Mock drill

Incident Controller :

Site Controller

**TO WHOMSOEVER IT MAY CONCERN
ENVIRONMENTAL CLEARANCE**
we, Pidilite Industries Limited are pleased to inform that the Environment Department, Government of Maharashtra, has accorded Environmental Clearance (reference no. SEIAA-EC-0000002138 dated 28 th February 2020) for expansion project for manufacturing of Polymers at Plot No. A- 22/1 & A-21/ 2, Mahad MIDC, Dist Raigad, Maharashtra. Total production capacity of products will be 66000 MTPA. The Environmental Clearance letter is available with the MPCB and may also be seen at web site at <http://www.ecmpcb.in/>.

पोहोचला कोरोना
रात तीन रुग्ण

महाराष्ट्र पसरवणारा नवसंहासक कोरोना
राजधानी दिल्लीपर्यंत पोहोचला आहे.
माहिती दिल्ली, दिल्लीबरोबरच तेलंगना
ल कोषांग कोरोनाची लागण झाल्याचे
व्याख्याना कोरोनाची लागण झाल्याचे
इटलीतून आल्याचे सांगितले जात आहे.
आली आहे. या पूर्वी केरळमध्ये कोरोना
आल्याचे वृत्त पाहूनच प्रसिद्ध झाले होते.

By-product information

By Product Name	Consent Quantity	Actual Quantity	UOM
NA	0	0	

Part-B (Water & Raw Material Consumption)

1) Water Consumption in m3/day

Water Consumption for Process	Consent Quantity in m3/day	Actual Quantity in m3/day
Cooling	317	76.877
Domestic	549	75.6
All others	28	21.42
Total	40	11.44
	934	185.33

2) Effluent Generation in CMD / MLD

Particulars	Consent Quantity	Actual Quantity	UOM
Trade Effluent	167.5	27.02	CMD
Domestic Effluent	25	13	CMD

2) Product Wise Process Water Consumption (cubic meter of process water per unit of product)

Name of Products (Production)	During the Previous financial Year	During the current Financial year	UOM
Polymer based on vinyl Acetate Monomer , Acrylate,Styrene,Ethylene Monomers and adhesive based on PVA	0.51	0.505	Ton/Ton

3) Raw Material Consumption (Consumption of raw material per unit of product)

Name of Raw Materials	During the Previous financial Year	During the current Financial year	UOM
Ethylene	0	0	Ton/Ton
Acetic acid for IPAC	0.0	0.0	Ton/Ton
Propylene for IPAC/IPA/DIPE	0.0	0.0	Ton/Ton
Oxygen	0	0	Ton/Ton
DOP	0.0	0	Ton/Ton
PVC resins	0.0	0	Ton/Ton
Caco3	0.0	0	Ton/Ton
Di basic phthalate	0.0	0	Ton/Ton
lead stearate	0.0	0	Ton/Ton
Pigments	0.0	0	Ton/Ton
IPA for DIPE	0.0	0.0	Ton/Ton
DM water	0.51	0.505	Ton/Ton

Monomers	0.443	0.42	Ton/Ton
catalyst & additives	0.086	0.085	Ton/Ton

4) Fuel Consumption

Fuel Name	Consent quantity	Actual Quantity	UOM
Coal	11648	1108.93	MT/A
FO	1274	50.972	MT/A
HSD	364	28.457	KL/A

Part-C

Pollution discharged to environment/unit of output (Parameter as specified in the consent issued)

[A] Water

Pollutants Detail	Quantity of Pollutants discharged (kL/day)	Concentration of Pollutants discharged (Mg/Lit) Except PH,Temp,Colour	Percentage of variation from prescribed standards with reasons	Standard	Reason
	Quantity	Concentration	%variation		
pH	0	7.61	0	5.5 to 9.0	No variation
Oil & Grease	0.03	1.15	0	10	No variation
BOD	0.755	29.14	0	100	No variation
TD5	32.41	1250	0	2100	No variation
Suspended solids	0.207	8.0	0	100	No variation
COD	2.63	102	0	250	No variation
CLORIDES	10.37	399	0	600	No variation
Sulphate	7.00	270	0	1000	No variation
TAN	0.32	12.72	0	50	No variation

[B] Air (Stack)

Pollutants Detail	Quantity of Pollutants discharged (kL/day)	Concentration of Pollutants discharged (Mg/NM3)	Percentage of variation from prescribed standards with reasons	Standard	Reason
	Quantity	Concentration	%variation		
SO2-TFH/Coal Fired Boiler Stack	19.6	0	0	320	No variation
TPM-TFH/Coal Fired Boiler Stack	0	92.43	0	150	No variation
SO2-DG STACK	0.68	0	0	1	No variation
TPM-DG STACK	0	60.6	0	150	No variation

Part-D

HAZARDOUS WASTES

1) From Process

Hazardous Waste Type	Total During Previous Financial year	Total During Current Financial year	UOM
5.1 Used or spent oil	200	257	Ltr/A
5.2 Wastes or residues containing oil	0	0.00299	Kg/Annum

23.1 Wastes or residues (not made with vegetable or animal materials)	125.04	96.8	MT/A
23.1 Wastes or residues (not made with vegetable or animal materials)	6.64	6.2	MT/A
33.1 Empty barrels /containers /liners contaminated with hazardous chemicals /wastes	4838	4810	Nos./Y
1.2 Tarry residues and still bottoms from distillation	0	0	MT/A

2) From Pollution Control Facilities

Hazardous Waste Type	Total During Previous Financial year	Total During Current Financial year	UOM
35.3 Chemical sludge from waste water treatment	34.66	36.52	MT/A

Part-E

SOLID WASTES

1) From Process

Non Hazardous Waste Type	Total During Previous Financial year	Total During Current Financial year	UOM
Waste paper, damaged pallets, Sweeping material	39	31.075	MT/A

2) From Pollution Control Facilities

Non Hazardous Waste Type	Total During Previous Financial year	Total During Current Financial year	UOM
Coal Ash	67	68.86	MT/A

3) Quantity Recycled or Re-utilized within the unit

Waste Type	Total During Previous Financial year	Total During Current Financial year	UOM
0	0	0	Kg
0	0	0	Kg

Part-F

Please specify the characteristics(in terms of concentration and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

1) Hazardous Waste

Type of Hazardous Waste Generated	Qty of Hazardous Waste	UOM	Concentration of Hazardous Waste
1.2 Tarry residues and still bottoms from distillation	0	MT/A	-
5.1 Used or spent oil	257	Ltr/A	Sale to Authorized party/ Recycler/ CHWTSDF
5.2 Wastes or residues containing oil	0.00299	Kg/Annum	CHWTSDF
23.1 Wastes or residues (not made with vegetable or animal materials)	96.8	MT/A	Sale to authorized party/pre processor/coprocessor/CHWTSDF
23.1 Wastes or residues (not made with vegetable or animal materials)	6.2	MT/A	Sale to authorized party/pre processor/coprocessor/CHWTSDF
33.1 Empty barrels /containers /liners contaminated with hazardous chemicals /wastes	4810	Nos./Y	Sale to Authorized party/ Recycler/ CHWTSDF
35.3 Chemical sludge from waste water treatment	36.52	MT/A	Sale to authorized party/pre processor/coprocessor/CHWTSDF

2) Solid Waste

Type of Solid Waste Generated	Qty of Solid Waste	UOM	Concentration of Solid Waste
Coal ash	68.86	MT/A	Sale to cement/brick manufacturer
Waste paper, damaged pallets, Sweeping material	31.075	MT/A	sale

Part-G

Impact of the pollution Control measures taken on conservation of natural resources and consequently on the cost of production.

Description	Reduction in Water Consumption (M3/day)	Reduction in Fuel & Solvent Consumption (KL/day)	Reduction in Raw Material (Kg)	Reduction in Power Consumption (KWH)	Capital Investment(in Lacs)	Reduction in Maintenance(in Lacs)
Rain water harvesting	27.26	0	0	0	0	0
Solar power	0	0	0	1000590	0	0

Part-H

Additional measures/investment proposal for environmental protection abatement of pollution, prevention of pollution.

[A] Investment made during the period of Environmental Statement

Detail of measures for Environmental Protection	Environmental Protection Measures	Capital Investment (Lacks)
Provision of standby Rotary vacuum dryer	Reduction of hazardous waste	18
Procurement of MBR UF membrane	For efficient effluent treatment	7
Reuse of HP water of reactors for HP cleaning	Reduction of fresh water consumption	0.3
Installation of mono block pumps for raw effluent transfer	For efficient effluent treatment	1
Installation of coarse and fine filters	Reduction of hazardous waste	16.9

[B] Investment Proposed for next Year

Detail of measures for Environmental Protection	Environmental Protection Measures	Capital Investment (Lacks)
Upgradation of Effluent treatment plant	Quality improvement of outlet treated effluent	56
Rain water harvesting from roof top of BSR 5	Reduction of fresh water consumption	8

Part-I

Any other particulars for improving the quality of the environment.

Particulars

1. Number of trees survived as on 31st March 2021 - 1923 2. Number of trees planted by September 2021-350
